## AGOA MLM BUSINESS GUIDE

2nd V - August 2021 - English

## Welcome letter from our CEO & Co-founder

It's a great honor for me to lead and serve this great company. There'll never be enough words of appreciation for the enormous number of people who have placed their trust in us by joining our model and sharing our vision of the world.

Who am I? My name is Gregorio Giarrusso and I'm 60 years old. I've been married for more than 25 years and I have 3 children. My family and life experiences have become the epicenter of much of what we have built at AGOA - a company made from and for families. Those who know me would say that I'm a creative person with a strong entrepreneurial spirit. After building a successful professional career over more than twenty years in MLM Industry, in which I led some of the most prominent multilevel marketing (MLM) companies worldwide, I gave myself the opportunity to capitalize on all of my knowledge and to use it to create my own MLM consulting firm, where I advised a vast number of companies in Latin America and the United States. Next came the desire to take all of this knowledge to another level and it was then when I accepted the invitation from Rafael Mendoza in partnership with Eduardo Schlottman to form the dream team that would develop the most innovative multilevel marketing company in recent decades.

Why am I here? I'm here for the same reason that most Independent Business Owners join AGOA, and that is to change people's lives. Perhaps that might sound somewhat ambitious, but reality shows that this is already happening as there are thousands of stories from Independent Business Owners who have made a radical change to their lives and who, thanks to their own effort, are fulfilling dreams they never imagined they could achieve.

The world has changed and these changes mean that we also need to change our behavior and our way of living when faced with this new reality. This is what we're proposing at AGOA - a disruptive model that transforms people's lives and aims to help them achieve their best.

We are the only ones who can harness the power of software and channel it through devices and services that really empower each individual and each organization. We are the only company with a history that is continuously focused on building platforms and ecosystems that create great opportunities.

Why are we different? First of all our DNA is full MLM 100%. Because our view of the world is different. Because our Company was designed with our Entrepreneurs in mind. Because we believe that multilevel marketing is not something done but it is something lived and felt. Each member of the AGOA Community is a key and fundamental piece in the construction of this Company.

Haven't you started to build your future yet? It's never too late! Here we're going to share the secret recipe of how you can do it in 4 steps: DREAM to CHANGE, CHANGE to SUCCEED, SUCCEED to LIVE, and LIVE to LOVE.

Gregorio Giarrusso | CCO & Co-Founder AGOA

  3. Income from your additional Incentives, Recognitions and Awards.
- Our AGOA Multilevel Compensation Plan has 14 Qualification Ranks distributed into 6 Leadership Levels, in which the following minimum requirements must be met:

### Personal Volume:

The minimum Personal Volume required per monthly sales cycle is 200 personal points. (This is the same for all of the qualification ranks).

### Group Volume:

Generational volumes are for Silver Ranks or higher.

### Total Volume:

Each Qualified Rank requires a minimum number of Qualified Active Lines and there is a Volume Percentage restriction for each Qualified Active Line (Maximum Volume per Qualified Active Line) depending of the Rank to achieve in the current month, which must be taken into account to reach the Total Volume required by the Qualification Rank of the monthly sales cycle.

## Rank Levels

Generational volumes are for Silver Ranks or higher.

Note: The maximum volumes of points allowed by Lines of Sponsorship are calculated for each frontality and all their network (This is called Sponsorship Line, Leg or Multilevel Leg). These maximum volumes are required in AGOA for multilevel anti-stacking practice by tier levels. In turn they are part of the computed volume required for the final qualification of each rank. If a line of sponsorship exceeds in its total volume the volume computed for a given rank, the maximum volume to compute for that same rank will always be taken, added to the other lines of sponsorship and their computed volumes, and so on for each lower rank in case of not reaching a certain eligible rank for the sales cycle (month).
